The Allen Story

Since
1945

ALLEN
ASSOCIATES
ESTABLISHED 1945

It is Spring of 1945. Allied troops have crossed the Rhine River and there is a new spirit of hope on the home front. As American GI's finish the job at hand, Ed Allen Sr. is just getting started on his own mission in upstate New York. Believing more than ever in the power of the American Dream, Ed launches his own business with the sole intent of bringing some much-needed joy to communities in desperate need of good news.

Ed started small. He quit his steady job, plunked down his entire life savings and opened Allen Candy Company. He started selling sugar treats, soda pop and ice cream toppings to the many five-and-dime stores and high schools in the Rochester area. But it wasn't always easy. Exhausted by 8-day work weeks and the ups and downs of the small business grind, Ed, his wife, Kathryn, and son, Ed Jr., started wondering if they hadn't bitten off more than they could chew. Worry & self-doubt were constant companions. In 1957, a competitor approached Ed with an offer to purchase Allen Candy Company. After a long discussion about the pros and cons of selling the company, Ed handed the pen to his only son and said it was his to sell if he wished. How things would be different today if Ed Jr. had not put that pen down.

Since that pivotal moment, Allen Associates rededicated itself to the mission of growing, prospering and keeping the American Dream alive for small companies throughout upstate New York and beyond. Three buildings later, along with 3 million gallons of Slush Puppie, 28 million pounds of popcorn, 72 million balloons, and tens of thousands of pounds of beaded Mini Melts ice cream, a team of more than two dozen continue to spread its own brand of joy and profitable business growth with whomever they touch. They've been doing it since 1945... and they always will. In 2020, they celebrated their 75th Anniversary!

ABOUT NEW ENGLAND. COFFEE

We believe that “small” actually means something pretty big. After all, New England® Coffee has been roasting coffee in small batches since 1916. And even though we’ve expanded our manufacturing and distribution capabilities over the years, our philosophy has never changed. We do our best to preserve the time-honored methods of selecting, roasting and blending the highest quality coffee. All while treating our employees like family and our customers like friends. 100 years and 10,000 customers later, we still pour everything we’ve got into making a great cup of coffee.

A young girl with brown hair in a bun, wearing purple-rimmed glasses and a colorful patterned dress over a grey shirt, is shown in profile. She is holding a large red and yellow striped popcorn bucket and has her mouth open as if eating. Popcorn is scattered in the air around her. The background is a solid yellow color.

Discover All The Ways Popcorn Can Pop Up Your Profits

At Allen we pride ourselves on offering branded products. We would much rather explain why a branded item cost a little more than to apologize for poor quality.

The popping expansion is the key to higher profits. There are different grades of popcorn sold in the US. The better the hybrid or grade of popcorn the larger the expansion of the corn. The better the expansion, the higher the profits. Simply it takes less kernels to fill a container.

Weaver is the brand of choice for the serious concession customer. Weaver is the only brand Allen carries because of the high standards they have for their product.

Hot Boiled Peanuts

Peanut Patch is the #1 brand of boiled & canned homegrown green peanuts in the world!

ABOUT PEANUT PATCH

Roadside stands selling boiled peanuts have dotted country roads from South Carolina to Florida for generations. Known as “The caviar of the South,” boiled peanuts are a Southern tradition... and the “Official Snack of South Carolina.”

Today, the unique “adventurous” taste of boiled peanuts is available in grocery stores nationwide, thanks to Peanut Patch Boiled Peanuts. Based in the heart of South Carolina peanut country, Peanut Patch grows a significant amount of its own peanuts.

Most of the rest come from nearby farms in the Palmetto State. “Locally grown” means Peanut Patch Boiled Peanuts are prepared fresh...from the ground to the can in the same day, which make them more flavorful and nutritious than dried or roasted peanuts.

Peanut Patch Boiled Peanuts come in a variety of flavors including Original Southern Style and Cajun.

McCall Farms, the South Carolina icon of canned vegetables and fruits since 1954, acquired Peanut Patch Boiled Peanuts from Roddenberry in 2002. Since then, Peanut Patch Boiled Peanuts has become America’s No. 1 brand. “The Taste of the South” is becoming a National Treat.

Hot Boiled Peanuts

ORIGINAL GREEN BOILED PEANUTS

Our Green Boiled Peanuts are just that - green boiled peanuts! Our peanuts are harvested from the ground, boiled in the can using our traditional southern-style seasoning and sealed fresh, all in the same day! This process allows the peanuts to soak in the brine and flavoring and locks in the freshness and flavor until you are ready to enjoy them.

CAJUN STYLE GREEN BOILED PEANUTS

Warning: Our Cajun boiled peanuts are hot - very hot. Just like our Green Boiled Peanuts, these peanuts are harvested straight from the ground and boiled in the can, but this time we use our Cajun seasoning recipe that will likely melt your face! Of course, they are harvested and sealed fresh, all in the same day! The longer they soak in that Cajun heat in the brine, the more likely you will have tears in your eyes while eating them (but you won't be able to stop). You have been warned!
